

JOÃO FERREIRA

JUNIOR SOFTWARE DEVELOPER

/ ABOUT ME

I am a Junior Front-End Developer with strong expertise in HTML and CSS. Currently, I'm transitioning into Mobile Development through a higher professional course, where I aim to build cross-platform apps and combine my Front-End skills with mobile technologies.

In my free time, I enjoy working on mobile projects, particularly using React Native, Flutter, and Java, where I focus on creating smooth, user-friendly interfaces and delivering seamless app experiences across platforms.
